### Management Tips:

- Good on southern rust and southern leaf blight, so moves south well.
- Corn after corn with fungicide.

### Hybrid Placement Tips:

- Strong emergence and excellent early plant vigor for first planting on reduced tillage acres.
- Expect superior test weight grain on semi-flex ear style.
- Very good stalk and very good root scores. Adequate foliar health.
- Ideally suited for variable soils in the eastern corn belt.

Always follow IRM, grain marketing and all other stewardship practices and pesticide label directions. Roundup Ready technology contain genes that confer tolerance to glyphosate, an active ingredient in Roundup® brand agricultural herbicides. Agricultural herbicides containing glyphosate will kill crops that are not tolerant to glyphosate. B.t. products may not yet be registered in all states.
