Management Tips:

- Well suited for both highly productive soils and less to moderately productive soils.
- Great foliar health. Will move to the Southern Ohio Valley.

Hybrid Placement Tips:

- High yield performance with very good stress tolerance.
- Exhibits superior stalk and root strength for your toughest acres.
- Flex ear. Longer ear type with good tip fill and deep kernels.
- Good late season intactness.
- Can be placed late in harvest order.

Always follow IRM, grain marketing and all other stewardship practices and pesticide label directions. Roundup Ready technology contain genes that confer tolerance to glyphosate, an active ingredient in Roundup® brand agricultural herbicides. Agricultural herbicides containing glyphosate will kill crops that are not tolerant to glyphosate. B.t. products may not yet be registered in all states.
